I bought a John Deere backhoe and a 333E skid steer, the backhoe is perfect but the skid steer had a couple of issues. Chad came out, picked it up, did the repairs and bought it back. A man of his word. Thank you Chad

Picked up my new to me skid steer from Zaxs auto sales today. Can't say enough on how well the whole process went he even met me half way for a delivery. Thanks again and keep up the good work.

Purchased a refurbished Bobcat T300 skid steer back in the latter part of October. The attention to detail is first class and most of the comments we have gotten is that a new machine? Today we purchased a set of forks and again the friendly service was very much appreciated. I would absolutely recommend this company for your needs in top quality workmanship. All the best in the future.

Bought machine sight unseen from ad on kijij.

Discussed the sale over the phone with Chad. Very knowledgeable and easy to deal with. Machine arrived today exactly as advertised. Great condition and all functions working. I would highly recommend this company and Chad for anyone looking for equipment.
